Say goodbye to sore feet.

THE FOOTWEAR SENSATION.

Spring/Summer 2017

THE MOBILS FEELING.

Comfortable, handmade, and a perfect fit: The shoes and sandals from MOBILS ERGONOMIC by Mephisto. Be inspired by the ultralight models and variety of our Spring/Summer collection, made from the finest natural leather! All our shoes of course offer the proven MOBILS quality: Innovative styling and sophisticated cushioning systems provide incomparable comfort for your feet while adapting to your individual needs.

ALLOVER PADDING

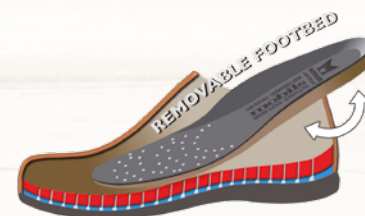

One of the features of MOBILS shoes and sandals is their ALLOVER PADDING: soft and comfortable. This amazing padding applied between the lining and the upper leather ensures optimal comfort, softly surrounding your feet and avoiding unnecessary compression.

SOFT-AIR TECHNOLOGY

Thanks to the SOFT-AIR TECHNOLOGY of MOBILS, aching feet are a thing of the past. The SOFT-AIR midsole minimizes the shock resulting from walking. It protects your feet, relieves your joints, cares for your back and promotes a healthy environment inside your shoes.

THE 4 COMFORT ARGUMENTS

REMOVABLE FOOTBED

The ANATOMIC REMOVABLE FOOTBED promotes the smooth movement of the foot and reduces the shock resulting from walking. It ensures a soft and tireless walk from all the styles of the MOBILS collection. You can also replace this footbed with your personal custom orthotics.

COMFORTEMP LINING

The innovative COMFORTEMP lining is a microfiber membrane that regulates temperature. This membrane ensures that the temperature inside MOBILS shoes remains pleasantly fresh at all times. And it maintains a healthy environment for your feet.

THE FINEST MATERIALS.

We love our shoes! And we believe it shows with every one we make. All of our shoes and sandals are handmade using traditional methods. For the perfect wellness experience, we combine exclusive natural materials with innovative technology. It's this exceptional combination that sets our shoes apart:

Supersoft, unbelievably comfortable, individually adaptable and always with a pleasant temperature. This is a result of the soft WRAP-AROUND PADDING and SOFT-AIR TECHNOLOGY along with the COMFORTEMP temperature membrane and REMOVABLE FOOTBED.

GOOD TO KNOW.

AN INDIVIDUAL FIT THANKS TO CLEVER DETAIL

A handy Velcro strap is hidden behind the decorative buckle to provide perfect grip. This allows the shoe to adapt to the individual shape of your foot. Zippers aren't just an attractive eye-catcher. They also make it possible to take the shoe on and off quickly and comfortably.

COMFORT WITH EVERY STEP: REMOVABLE PREMIUM FOOTBED

The anatomically shaped footbed supports the natural movement of your foot with every step. This means you can walk comfortably and effortlessly. The flexible footbed can be swapped for individual insoles in all of our shoes and sandals.
